### Biography

Obscuria is a self-taught artist who transforms wounds into visual language. A mother and solitary woman, she has made art her anchor and her instrument of rebirth. In her works coexist light and darkness, pain and revelation — an inner journey that becomes a mirror of the human condition. Each painting is a confession, but also an act of resistance — proof that beauty can arise from any storm.

### Artist Statement

My work is born from a visceral need to give form to chaos and melancholy. I use color as flesh, line as breath, and matter as memory. I narrate fragility, but also the silent strength that pushes us to rise again. I don't seek to decorate the world, but to reveal it as it is: wounded, alive, and infinitely human.
